**Emmi Roth USA continues operations after hurricane Sandy**

Emmi Roth USA, Inc. was very fortunate and has come through hurricane Sandy with minimal disruption. We are pleased to report that our offices and warehouses in the New York area all fully functioning. With the support of our Wisconsin warehouse and distribution center we have been able to provide our customers and consumers with best in class customer service on our domestic cheeses and yogurts.

The ports of New York and New Jersey have reopened and we have restocked our warehouses with our cheeses from Switzerland. While we have significant quantities of our cheeses from Switzerland available for delivery or pickup, we will be able to fully meet normal holiday demand for these cheeses as of next Tuesday, November 13th.

We are currently working with all customers to understand their future needs. We are confident that we can continue to supply you with the level of customer service and quality of cheeses you have come to expect from EmmiRoth for the immediate future and during this busy holiday season. For customer convenience we have installed a hotline for shipping information. You can call 608-558-8643 or any of your contacts at Emmi Roth USA.

We would like to thank all of our employees, business and community partners for their help during this very difficult time.

As part of the New York/New Jersey community our thoughts, efforts and prayers go out to all of those still impacted by the hurricane.
